# Cent

## Mobile Payment system

### Pre-ICO

**Join us to bring new currency to the Binance exchange**

## Abstract

From our point of view and the entire cryptographic community, the lack of innovation within the field of financial heritage management, means we remain anchored to the past. The opportunity that is being offered to us to start being part of the leaders of the new digital era has never been so great and enormously beneficial for all. This access to technological modernization manages to alter the commercial models of the banks themselves by significantly reducing costs and greatly boosting market share gains through the digital acquisition of customers. In the next two years the new generation of the millennium will begin and we will be adapted to all the technologies that digital evolution brings us.

## Idea

**Use mobile phone to buy and sell products everywhere using cent coin.**

We are working to make payments by cryptocurrencies easiest than never before. Use just mobile phone to sell, buy and control your “crypto coins”.

## Use cases

Where mobile crypto coins can be useful?

- **Trading** trade Cent coins on most popular cryptocurrency exchanges
- **Investment** in capitalization
- **Web services** buy and sell web services using cent money
- **Gaming** use your tokens to buy ingame stuff
- **Presents** for friends.
- **Mobile** tokens.

**Cent coin** using Waves-NG protocol being the fast transactional exchange system. That allow you to organize your trade in easy way.

## Roadmap

**4Q 2018** - launch PRE-ICO

**1Q 2019** - launch ICO

- Start to create mobile app for Android

**2Q 2019** - Release the Android app

- Start to develop web panel to manage payments and loses

- Start to develop web panel to manage payments and loses

- Start to create mobile app for IOS

**3Q 2019** - **Start to prepare to come Binance trading platform**

**4Q 2019** - Finish ICO

**1Q 2020** - **Upcome to **Binance****

## Roadmap: **launch PRE-ICO**

Now a day centcoin has good positions at WAVES DEX currency exchange. So we believe that pre ICO will allow us to grow faster.

Please visit at waves DEX platform to check this point.

**Bitcoin / Cent** pair currently at normalization phase. But price of cent still growing.

## Funds distribution and capitalization

Each day cent becoming more promising. But to launch the big ICO we need funds. For marketing, advertising, prototype mobile app, e.t.c. So we have decided to include pre ICO stage, in start-up strategy. Money that we will gather be distributed by following chart:

As you can see, we are much interested in marketing promotion. We working on capitalization. For every investors first - option how many multiplication could be achieved.

Promoting - will attract more and more interested users within the world. So, we spent half of our incomes to .
